W D 88—GPB—50 000—24 ? 16

Subd to Secty

In para 5 of the Review on the Education Report for 1894-95 it was noticed that while the total expenditure on Public Instruction amounted to Rs 820610, only Rs 206575 or about 26 per cent were spent on Primary Schools. It was pointed out that for developing elementary education it was necessary to obtain additional funds, and that the object could be secured by slightly raising the school fees and levying them on a small scale in schools which are now free, by reducing charges under other heads and by requiring Municipal and Local Fund Boards to contribute more largely than at present towards Primary Education. The Inspector General was asked to submit his views and suggestions on the subject.

In reply the Insp[r] Gen[l] invites attention to his views

No 8318/377 d 20 April 1897
(SE No 6 7th file)

Expressed in paras 9, 10, 11 & 12
of his Memorandum on
Village Schools in Mysore
printed as an Appendix to
the Education Report for 1894-95 (Interest)
In these paragraphs the DI
suggests the increase of the
Village School Fund from
2 lacs to 4½ lacs in the
following manner. ——

Levying fees in all Public Schools —	22000
Do — fees in new Schools to be Established —	13250
Raising the contribution from Local cess from 24 to 33 per cent as in the Bombay Presidency ——	2,75,000
Contribution from State Funds as a grant in aid —	1,50000
	4,60,250

If the income be thus raised
the D I thinks it will be
possible to increase the number
of Village Schools from 1230
to 3215 within a short space
of time —

In his letter of the 20th April 97

Remarks by the Secretary
These are the chief
main recommendations
of the —

Sc No 7

3

the Dist Gov. has somewhat modified his views stating that education in all village schools should continue to be free as is the case in England and most European countries, and that the Municipalities of Bangalore and Mysore which devote only 6 22 per cent of their income to primary education and the other Municipalities only 4 93 per cent, should be compelled to contribute not less than 12 and not more than 15 p c of their revenues towards the cost of education

The other points in the D Gs letter do not require orders

Subd to Secty

2/9/97

Rural-Compulsory Education

Levying fees in Govt schools may be dispensed for the present

The Municipalities are unable to make any contribution towards Education

In my humble opinion

at least 1/3 of the
local cess may well
be set apart for Education
I would urge that for
favourable consideration
as much remains
be done for extension
of primary education

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE,

No 8318/377

~~Bangalore~~ Mysore, 20th April 1897

From

H J BHABHA Esq

Inspector General of Education in Mysore,

Education
To 74-1896

The Secretary to the Government of Mysore
in the General and Revenue Departments,
Bangalore

SIR,

I have the honour to submit briefly the additional information called for in Order No 14188—Ed 451, dated Bangalore 30 June 1896, reviewing the Report on Public Instruction in Mysore for 1894-95 The information is given under the heading of each para of the above Order under which it is called for

Para 5 My views and suggestions regarding the ways of obtaining additional funds for the spread of primary education are stated in paras 9, 10, 11 and 12 of my memo on Village Schools in Mysore published as an Appendix to the Report on Public Instruction in 1894-95 I would modify these views at present by recommending that education in all village schools should continue to be free, and that the distinction between Taluk Branch and Hobli Schools

should be abolished The loss of fees caused by the conversion of the existing Taluk Branch Schools into Hobli Schools will be about Rs 3200 Education in all Board Schools of England and Primary Schools in most European countries is free A large number of the Municipalities of Mysore were by Order Camp No 11-20- L F 116-93 dated 12th October 1894 made to contribute Rs 14,750 more than they had hitherto done to the cost of education Nevertheless the municipalities of Bangalore and Mysore devote only 6 22 per cent of their income to education, and all other municipalities only 4 93 per cent The minor Municipalities which have very limited incomes may perhaps be relieved of all charges on account of education, but the larger and well-to-do municipalities should be compelled to contribute not less than 12 and not more than 15 per cent of their revenues to the cost of education

Para 17 A memorandum showing the present needs of accommodation in Provincial Funds and Local Funds Schools will shortly be submitted

Para 19 A classification of girls by caste or race in all Public schools was given in para 18 of the Report for 1894-95 A more detailed classification of girls in Schools of all grades has been given in para 101 of the Report for 1895-96

Para 23 Information regarding

b

Spare copy sent.

a more detailed classification was called for

the number of successful European or Eurasian pupils in the public examinations was given in General Table VI appended to the Report on Public Instruction for 1894–95 Similar information has been included in the body of the Report for 1895–96 in para 111 '97

Para 31 Balbodhe No II was newly written for the Kannada Schools On the subject of the delays caused by the Government Press in printing educational books and the ways of finding a remedy for the delays, I have already addressed to you my letter No 5030/283 dated 14th January 1897

I have the honor to be,
Sir
Your most obedient servant,

H G Bhabha
Insp Gen of Education

~~H-Education~~
H-1896
2

In para 3 of the Review
on the Education Report
for 1894-95 it was noted
that out of a total expen-
diture of more than Eight
Lacs of Rupees on Public
Instruction, only about
26 per cent ~~of that~~ had been spent
on Primary Schools, and
it was pointed out that
in order to
~~for~~ development & elementary
education it was necessary
~~that~~ to raise additional
funds ~~by~~ chiefly by slightly
~~increasing~~ increasing the rates
levied on the seven lowest
and ~~levying~~ new classes of schools
levying them on a small
scale

scale on schools which are now free, (2) by reducing charges under these heads and by requiring Municipal and other Local Fund Boards, ~~to contribute~~ more largely than at present towards primary Education

The Inspectress of schools ~~was asked~~ to submit his views and suggestions on the subject

2 In para 2 of his letter read above, the Inspectress states that Education in all village schools should continue to be free ~~and~~ that the Municipalities of Bangalore and Mysore which devote only 6 22 per cent of their income to primary schools

Please see my note 19/4/1947 — 2 pages

23/4/47 Mahal

23/4/1947

and the Town Municipalities
only 4 or 3 per cent should
be required to contribute
not less than 12 and not
more than 15 per cent
of their revenues towards
the cost of Education &
that the allotment made to you for
education from the Local
Fund (as which we
found at 24 per cent) be
raised to 33 per cent, or
nearly a third of the income
from the rates
3 Govt are of opinion that
the Provincial Local Funds
Cannot bear the proposed
reduction of their income
by 9½ per cent of the
Local (as 3/8 the
sufficiency of the Vill
School Fund can

be demonstrated – which
it has not yet been – some
other measures for supple-
menting it would have
to be devised. On this point, the DGL will
submit a further communication
how the present Village School Fund falls short
of actual reasonable requirements,
& on receipt of such communication
the desirability or otherwise of
adopting the above Board's
will be duly considered by
Govt of
